Summary: Python developer and open-source maintainer with 1.5+ years of remote experience on US-based teams. Two published **PyPI** packages (**10K+ downloads**), **7,275**+ tests written across projects, and a strong quality culture: typed code (mypy), linted code (ruff), benchmarked hot paths, and CI-gated releases.

Technical Skills

Core Python: Python 3.11+, asyncio, typing/protocols, concurrency (thread pools, subprocess isolation), dataclasses, context managers

Packaging & CLI: setuptools, uv, PyPI publishing, Click, Rich, Sphinx documentation, versioning & release workflows

Quality & Testing: pytest (7,275+ test functions authored), pytest-asyncio, pytest-benchmark, coverage, ruff, mypy, pre-commit, GitHub Actions CI

Data & APIs: pandas, NumPy, requests/httpx, REST, WebSocket, Scrapy, Playwright, SQL

Tooling: Git, Docker, docker-compose, Make, Linux, CI/CD

Work Experience

Teamlift — United States (Remote)

Junior Data Scientist **Jan 2024 - Dec 2024**

- Scraped **thousands of AI tools** from public tool directories and built an automated **verification pipeline** (HTTP status checks, screenshot capture, freshness validation) powering Teamlift's **Teamo** recommendation engine.
- Preprocessed and normalized thousands of tool records into model-ready features with reproducible, testable cleaning workflows.

Data Science Intern **Jul 2023 - Dec 2023**

- Built an automated pipeline collecting **thousands of job postings** from dice.com with **deduplication**, hardened with retries, rate limits, and robust parsers.
- Trained **time-series models** to forecast skill demand; delivered documented, testable preprocessing utilities to the analytics team.

Technical Projects

NotebookLLM — Open-Source Python Library, CLI & MCP Server **2025 - 2026**

- Designed, packaged, and published to **PyPI** (10K+ downloads): unified API across **8+ notebook formats**, 4-mode agent-optimized output with tiktoken token budgeting, **ijson streaming** for 10 MB+ notebooks, atomic crash-safe writes, Click CLI with Rich output, pytest suite with benchmarks, ruff + mypy gates, Sphinx docs, and CI.

Kausal — Production AI Agent Platform (private) **2026**

- Extended the ii-agent framework in **pure Python** (no LangGraph): custom **RAG**, layered memory, **OpenTelemetry** observability, **LiveKit** voice/video, **LiteLLM** routing, agent skills, S3 storage — with a **7,275-test** behavioral suite across 16 test categories (unit, integration, load, e2e).

Forge — Code Generation Engine **2024 - 2026**

- Built emitters producing **Python SDKs** (Pydantic-validated), CLI tools, MCP servers, and **17 output types** from one OpenAPI 3.x IR; multi-registry publishing pipeline (PyPI, npm, Cargo, Maven, NuGet), byte-stable output tests, and 13 compile gates in CI.

Cerberus — Browser Control Plane **2026**

- Engineered an idempotent **Make**-driven setup/verify system (**86 automated checks**), a 60-tool MCP bridge, and diagnostic tooling with actionable failure logs across a multi-process Python/Node stack.

Education

B.Sc. Software Engineering, National University of Modern Languages (NUML), Islamabad **Aug 2026**

Certifications

Certificates: Claude Certified Developer – Foundations (Anthropic, proctored) · Kaggle **2× Expert** (Datasets · Notebooks, 13 medals) · DataCamp DS/DA career tracks · Google Cloud Gen AI badges (4) · NUST Advanced LLM Bootcamp · Leadership: Aspire Leaders Program (Cohort 4 '26, in progress) · McKinsey.org Forward (Core Skills '26, in progress)
